List the specific problem and all details available – coach, players (name and numbers), spectators, and the actual issue.

I realize the other school will have ten days to reply to this report. It is also my understanding that this report will be kept on file in the FCC office, and as they accumulate, the Competition Director may call a meeting, at his discretion, to meet with that school and executive committee to present these problems and arrange a solution. This meeting will carry a \$50. fee. If this does not resolve the problem, the executive committee may impose probation or suspension.

We have a sent a copy of this report to the other school involved and the FCC office. To our knowledge, the above information is factual, not hearsay, and correct.
